

It's not too late to get help if you are paying too much for your medications!

If you are a Medicare beneficiary and are single with a monthly income of less than **\$1,354** and resources less than \$12,510 or a couple with monthly income of less than **\$1,821** and resources less than \$25,010, you may qualify for extra help with the cost of prescriptions in a Medicare Part D Prescription Drug Plan.

For more information call the Medicare Call Center at the Benjamin Rose Institute on Aging at
